

## WHY NOW MICRO VIGILANT FOR PHYSICAL SECURITY

We understand the unique challenges that system integrators and independent software vendors face in this dynamic industry. We act as an extension of your team and take a personalized approach to every relationship and interaction, setting us apart as a partner who consistently delivers on our promises.

Our  
Promise:  
Your  
Success is  
Our Focus

### Responsiveness

Swiftly addressing your needs is our top priority. We don't just respond; we anticipate and deliver beyond expectations.

### Collaboration

Your success is our success. Our approach is resourceful, inclusive, and friendly, ensuring the best solutions tailored to your unique requirements.

### Innovation

We are forward-thinking, inventive, and solution-driven. We introduce new solutions that not only meet your current needs but propel your business into a future of success.

### Vigilant Physical Security Products

**Video Recording Servers:** Purpose built devices for recording and managing video footage captured by network-connected cameras.

**Workstations:** A centralized platform for viewing video feeds from network cameras, accessing footage, and managing camera settings.

**Management Servers:** Purpose-built devices used to store, manage, and process video surveillance data from multiple IP-cameras.

**Access Control Servers:** A key component of a complete access control system, managing access to physical or digital resources.

### Equals Decreased Risk and Increased Profits

**Partner:** the power of collaboration.

**Performance:** execution excellence to maximize your margin.

**Portfolio:** purpose-built, custom, and commercial off-the-shelf appliances.

**Configure:** build your precise solution.

**Catalyze:** an exceptional out-of-box experience with seamless setup and instant engagement.

**Control:** manage every asset from procurement to end of life.

### Making Device Management Effortless

DICE is a cutting-edge software platform that revolutionizes device management. With DICE, you can effortlessly access valuable asset details and real-time device information through an intuitive online portal. Each component of DICE is designed to address specific device management challenges in security deployments, always keeping the end user in mind.

Whether used as a stand-alone tool or integrated into your asset management practice, DICE gives you the information you need at the click of a button.
